## CARNIVAL MUST PAY REGULAR FEE TO SHOW IN CITY

Police and License Committee  
Rules Council Erred in Fix-  
ing \$10 Rate

Because a city ordinance establishes the license fee for carnivals at not less than \$25 for the first day and \$15 for each succeeding day, the carnival which will exhibit here next week under the auspices of the local Moose lodge will have to pay this fee rather than the \$10 a day rate set by the common council it was decided at a meeting of the police and license committee Saturday. The carnival management and officials of the Moose lodge have agreed to the change, it was said Monday morning.

In establishing the license fee at \$10 a day at the meeting last Wednesday evening, none of the aldermen were aware of the provisions of the ordinance which establishes a minimum rate for carnivals, it was said. The carnival company will arrive in the city Saturday evening and will be here a week.

## OLD TIMER IS STILL CARRYING WOEFUL FACE

"I may not be university graduate but I can tell you we are not going to have any more warm weather," "The Old Timer" said Monday in a direct challenge to the official prophet who said "fair tonight and Tuesday with rising temperature."

"The Old Timer" made several predictions last week and although they were exactly opposite from the regular weather man's report he was right. He says that he has a natural ability for knowing "what is what" in weather reporting and he still sticks to his theory that the warm spell of last week was a freak and that we are due for "cold" weather only from now on.

Following the "hottest" day last Thursday when the mercury rose to 93 the temperature dropped after the rain Friday and the weather was cool over the weekend. Saturday morning the temperature at the official thermometer at Schlafer Hardware Co. store was 54 and it rose to 72 at noon. Beginning its day's journey at 56 Sunday morning the mercury hit 74 Sunday noon. Rain and cool winds Sunday night sent the reading down to 54 Monday morning and 61 at 11 o'clock was the high reading for the day.

## THIS HORSE "KNOWS HIS OATS"

"Kirby Dare" is a wonderful horse when it comes to intelligence. In fact his trainer and rider, Miss Maude Edwards, will tell you there is not another exhibition horse in this world who possesses the intelligence credited to this animal.

Miss Edwards is a horsewoman and rider of no little distinction, for she has been riding and training ever since she was a youngster. Both horse and rider are among the hundreds of performers who will be seen with Sells-Floto circus when it comes to Appleton next Thursday.

"Kirby Dare" is seven years of age. He is a native of Missouri, where Miss Edwards purchased him when he was about one year old. He was given a six months' course of training before he made his first public appearance as an exhibition horse.

Since that time he has been in most of the principal cities of the

North American continent. He has been with Sells-Floto for three years, in the "rear back" as seen above, he is the only horse who has been able to maintain the position for longer than a minute.

His performance is filled with thrilling stunts, all of which are difficult and extremely dangerous for the young woman who handles him. Yet neither horse nor rider have ever been injured.

## FINE DRIVER FOR OPERATING BUS WITHOUT PERMIT

Two Drivers Taken into  
Court for Driving Too  
Fast

Les Brown, Milwaukee, was arrested by Appleton police at 9:15 Monday morning for driving a bus within the city limits without a license from the common council, as required by a city ordinance. Brown pleaded guilty to the charge, and Judge Theodore Berg imposed a fine of \$10 and costs of \$3.20. The fine was not paid by noon Monday.

Two speeders were arrested within the city over the weekend by Appleton police. Both pleaded guilty Monday morning in municipal court and paid fines of \$10 and costs. They were: Roy Sauberlich, 1003 N. Durkee-st., who pleaded guilty of speeding Saturday at 35 miles an hour on W. College-ave, and Andrew Schultz, Jr., 503 S. Locust-st., who paid his fine for speeding Sunday afternoon at 25 miles an hour on W. College-ave.

O. B. George, 127 S. Pierce-ave., arrested Saturday on the charge of making a left turn at College-ave and Oneida-st., did not appear in court Monday morning.

## YOUTH SAYS CAR DIDN'T STOP AFTER HITTING HIM

Anthony Tenneson, 22, 821 W. Jackard-st., suffered a broken nose and minor bruises about the body when he was struck by an autoist at Twelve Corners about 10:30 Sunday night. Tenneson claimed the car that hit him had only one light and that the driver did not stop.

He was taken to the dance hall at Twelve Corners after the accident and was rushed to St. Elizabeth hospital. The young man is an employee of C. R. Meyer and Sons Construction company.

Barbers Meet  
Appleton Barber's union will hold its monthly meeting Monday evening at Trades and Labor hall. Routine business will be disposed of.

## THE WEATHER

### MONDAY'S TEMPERATURES

	Coldest	Warmest
Chicago	62	78
Denver	58	76
Duluth	42	72
Galveston	59	80
Kansas City	59	76
Milwaukee	60	72
St. Paul	52	84
Seattle	62	88
Washington	56	76
Winnipeg	38	70

### WISCONSIN WEATHER

Generally fair tonight and Tuesday cooler tonight in south portion, rising temperature Tuesday afternoon, except along Lake Michigan.

### WEATHER CONDITIONS

The high pressure area centered at Winnipeg, Can., this morning has caused the temperature to fall considerably below normal in that section and the lake region. This "high" will control conditions here during the next 48 hours, with generally fair and cool weather. A low pressure area in the extreme northwest is causing another heat wave in that section, with maximum temperatures yesterday of a hundred degrees in the shade at some stations. Another "low" centered over Lake Superior last night caused showers over the lake region as it moved eastward. Showers have fallen in the northwest, and southwest, and Atlantic coast during the past 24 hours.

## HOME GROWN CHERRIES REACH LOCAL MARKETS

Home grown cherries were placed on sale on the fruit market here Monday morning at 25 cents a box and \$2.75 per crate. The berries are fine red and large and are ideal for canning, according to the dealers. Home grown strawberries also were placed on sale Monday morning at 30 cents per quart.

Sturgeon Bay cherries will not reach the local market for another week, according to fruit dealers. They will sell at about \$2 per crate and the price will not go much lower even though there is an extra large crop of berries. The demand is as heavy as the crop and many people have placed orders ahead for crates of cherries for canning purposes.

## DIAGNOSES HIS DEATH

New York—Dr. Barnet Quel, a practicing physician for 26 years, died recently. He had diagnosed his own illness and gone to the hospital for treatment shortly before he was stricken with apoplexy.

## AGAIN ADJOURN HEARING OF MICHIGAN DRIVER

Preliminary examination of Edward Perket, Spaulding, Mich., alleged driver of the automobile which struck and seriously injured Mrs. Anna Schug of Menasha, on July 2, was adjourned for a second time Monday morning in municipal court at Oshkosh. Perket will appear in court at 10 o'clock Thursday morning.

Mrs. Schug is still in a critical condition. In the event of her death the charge of reckless driving and failure to render aid now preferred against Perket, will be changed to a charge of manslaughter. R. Curtis Laus, assistant district attorney for Winnebago-co., was in Appleton Monday afternoon to visit Mrs. Schug at St. Elizabeth hospital here.

Mr. and Mrs. Herman J. Kunerd of Grand Rapids, Mich., spent the weekend with friends here.

ATTENTION MOOSE!  
Important meeting Tuesday night. Be there!

## INJURED WOMAN IS IN CRITICAL CONDITION

The condition of Mrs. Phillip Kury, 35, Apple Creek, who suffered a concussion of the brain when she tripped over a dog Saturday morning, was said to be serious Monday morning by the attending physician.

The accident occurred in front of the George Walsh Clothing co. store. The dog ran in her path, tripping her. She was taken to St. Elizabeth hospital.

## MINISTER AND FAMILY ON LONG AUTO TOUR

The Rev. Edward Nuss and family left Monday morning by automobile on a three weeks' trip to Denver, Colo. The Rev. Nuss is the pastor of First Reformed church. There will be no services at the church on the three Sundays of the pastor's absence. Stops will be made at Vermillion, S. D., to visit relatives of Mrs. Nuss and at Sutton, Neb., Mr. Nuss' home town.

## New Cable-Nelson Baby Grand

IT IS A GREAT pleasure to announce the arrival and initial display of the latest model in pianos of the Cable-Nelson Piano Company. This new comer in the piano field is a Baby Grand 4 feet 11 inches in length—large enough to conform with all the requirements of a good grand piano—yet small enough to be easily accommodated in the space required for an upright piano.

This exquisite little Grand marks a new era in Grand piano construction. In evenness and responsiveness of touch and in purity and musical quality of tone, it may well be the delight of the finished musician. In beauty of design and depth of finish it can easily hold the center of attraction in the best of furnished rooms and among lovely home surroundings.

Nothing could please us more than to have this little masterpiece of the piano maker's art seen and examined by the musicians and music lovers of the city during the coming week.

MAIL RECEIPTS  
SHOW INCREASE  
OF \$14,048.69

Business for Fiscal Year Ending June 30 Exceeds That of Last Year

An increase of \$14,048.69 is shown in receipts of the Appleton postoffice during the fiscal year ending June 30, 1926, over the last fiscal year. Total receipts for the year ending last month were \$153,158.56, while those for the year ending June 30, 1925, were \$139,109.87.

The quarterly report of Postmaster William H. Zuehlke, for the 3-month period ending June 30, shows that the total receipts were \$37,119.60, compared with a total of \$33,429.74 for the same period in 1925, or an increase of \$3,689.86. The gain is attributed to better economic conditions prevailing throughout this section of the state, compared with the conditions of the previous year.

The first quarter of this year, however, showed a decrease of \$853.79, when compared with the corresponding period last year. This fact is probably to be accounted for by the heavy receipt during the last quarter of 1925, when the total increase was \$2,219.89 over the same period in 1924. More than half of the increase, or \$1,245.26, was registered in December before the Christmas holidays. As a result, it is believed, the receipts during the following quarter suffered a serious slump. Total receipts during the last quarter of 1925, were \$50,196.77, while those of the first quarter this year were \$33,999.15.

A total of 15,793 domestic registered letters and parcels are shown in the report for the last fiscal year, compared with 17,501 for the previous year. This shows a total decrease of 1,708, which is accounted for by the fact that the 10 cent fee was abolished April 25, 1925. Registered letters and parcels under the 10 cent fee up to that time totaled 13,923 pieces. Foreign registered letters and parcels during the last fiscal year totaled 67 pieces, against 1,374 in 1925. The decrease is accounted for by the fact that the 10 cent fee was eliminated Dec. 1, 1925.

An increase of 7,294 return receipts for domestic registered mail is shown in the report for the year ending last month when compared with those of the previous year. The fee in each case was 3 cents. The total number of pieces during the last fiscal year was 7,254, compared with 36,802 pieces during the previous year.

Official registered mail sent postage free numbered 227 pieces in 1926, compared with 308 pieces in 1925. An increase of 482 pieces of insured domestic mail is shown, despite the fact that the 3-cent fee was abolished April 25, 1925. The total number of pieces during the last fiscal year was 7,254, compared with 36,802 pieces during the previous year.

Insured mail to Canada dropped off considerably during the last year, according to the report, there being 93 pieces in 1925 against 118 pieces in 1926. Seven parcels of insured mail went to Great Britain and Northern Ireland during the past fiscal year, against three pieces during the previous year.

Domestic C. O. D. parcels during the last year were almost identical in number with those of the previous year, there being 3,944 and 3,941, respectively.

STORAGE CHARGE  
TO BE ENFORCED

American Express Company  
Will Make Assessment on  
Uncalled for Packages

Shipments handled by the American Express company will be liable for storage charges if they are not removed from the company's premises within three days after receipt, according to a new schedule which will go into effect on Aug. 1.

Charges for every 100 pounds or fraction thereof are 10 cents for the first day, 50 cents for the first 10 days, and 50 cents a month thereafter. If the article is removed to a public warehouse the consignee or shipper is liable for warehouse charge.

No storage will be charged for packages shipped to points outside the free delivery limit, or to points where there is no delivery service or where tender of delivery has been made, unless such failure is due to request of shipper or consignee. Shipments addressed to transients, those marked "will call" or bearing other information indicating that they are to be held at the company's office are subject to storage charge.

Packages sent C. O. D. have five days free time if accepted. If returned they are classed like other merchandise.

BEBE DANIELS IN  
"THE PALM BEACH GIRL"  
A PARAMOUNT PICTURE  
FISHER'S MONDAY AND TUESDAY.

YEAR'S ALIMONY  
BILL TO CLERK  
TOTALS \$20,000

Eighty-five Divorced  
Husbands Pay Toward Support  
of Former Spouses

Alimony amounting to approximately \$20,000 is received and paid out yearly at the office of H. A. Shannon, clerk of municipal and circuit court. Although no exact figures are available on the persons paying alimony regularly, it is estimated that they are about eighty-five of them. This would place the average monthly alimony paid to the clerk of court in the neighborhood of \$20.

It is almost impossible to estimate the membership of the "alimony club," or those who have been ordered to pay alimony, but have refused or are unable to make payments. For one thing, a certain number of persons apparently have an inherent distrust of public officials, and make their payments direct to their divorced wives. This is in violation of the order of the court, but as a rule there is no complaint from either of the interested parties.

In numerous other cases, apparently, the divorced husband — "equal rights" have not progressed far enough in Outagamie co. to cause any woman to pay alimony to her former mate—simply ignores the court order and fails to make payments. The ex-wife does not bring action against him. Of course, he is always subject to a summons on a contempt of court charge or on a civil charge.

Where the former husband leaves "for parts unknown" without the formality of making required alimony payments, the divorced wife in many instances probably regards it as a waste of effort to attempt to locate him. Of course, he is always subject to a summons on a contempt of court charge or on a civil charge. The length of time during which alimony must be paid depends upon the court order. Where there are one or more children the father is often ordered to contribute a definite sum to their support until they reach a specified age.

Absent Minded Travelers  
Add To Hotelman's Cares

Are you a member of the Habitual Absent Minded Traveler's club? Do you stay at a hotel and then forget your traveling bag, watch, comb, money, clothing, razor or shoes. If so then you are one of the people who cause hotel owners much trouble and loss of time and labor.

Articles worth nearly \$1,000 are left behind by guests of the Appleton, Northern and Conway hotels of this city, each year, according to the managers. The Conway has the largest number of "left behind" articles, the Appleton is next and the Northern is third.

Among the articles left behind are rings, watches, clocks, musical instruments, clothing, shoes, slippers, razors, toilet articles, combs, brushes, razor straps and sometimes money. In the most cases, according to the managers, people who forget things come back or write for them. In case some valuable article is found, the manager of the hotel immediately begins a search for the person who occupied the room in which the article was found.

On entering the hotel the person is obliged to register and a room number is placed opposite his name. If something is found in his room, a clerk is generally available. In about 80 per cent of the cases, however, either the owner returns immediately or writes the hotel in regard to his property.

At the Appleton hotel unclaimed articles are wrapped, labeled and filed away and are held for a year before they are disposed of. At the Northern hotel the number of articles left in rooms is very small, according to the manager John A. Brill, and in practically every case the owner has either returned or written for his property. He states that money is seldom left behind by guests.

Pajamas and razor straps often forgotten by guests. Valuable articles such as diamond rings or pins, watches or money seldom are forgotten.

HISTORICAL LIBRARY  
SEEKING LOG CABIN

Madison —(P)—A log cabin, relic of pioneer days, is the object of a search being conducted by the Wisconsin State Historical Society. The society contemplated erecting the cabin on public land in Madison, preferably University of Wisconsin grounds.

The announcement that the society is seeking a good, sound log house was made Saturday by Dr. Joseph

Schafer, superintendent of the society. It is desired for preservation as a permanent reminder of pioneer times.

A private citizen has offered to pay for dismantling the log-house, if one is found, removing it to Madison, and re-erecting it. The historical society is searching for an owner of such a house, who would be willing to donate it to the state. The name of the donor would be made a part of the permanent historical record.

The board of regents of the university has accepted the offer to erect

the cabin on the institutions grounds. The project would not involve the expenditure of any public funds.

The search thus far indicates that log houses are scarce in Wisconsin. None in good condition has been found.

## ANOTHER MISARRIAGE OF JUSTICE

Martin Durkin, who shot Federal Agent Edwin C. Shanahan down in cold blood, gets off with a thirty-five year penitentiary sentence. If he serves the term it will be a wonder. Durkin, of course, deserved to hang. There was nothing about his case to warrant sympathy or extenuation. He had a bad criminal record and he was engaged in criminal doings at the time he murdered Shanahan. A glib attorney and a weak-kneed jury saved him from the gallows. His lawyer declared in court that half of the policemen in Chicago are bootleggers or are in cahoots with bootleggers. Possibly that is true; we would not challenge its accuracy. Certainly a great many of them are. Certainly, too much of Chicago's government is in league with bootleggers and criminals. If it were not it would not be passive in the face of the most desperate crime ever known in any city. But what has that to do with Durkin? Nothing, so far as Durkin's crime and the punishment he deserves are concerned. As a matter of fact, however, it is the depraved and demoralized condition of Chicago's government that is responsible for this miscarriage of justice, just as happens every day in the world and in all important murder cases. Is Chicago ever going to turn over a new leaf?

## THE TRAFFIC PROBLEM

After a survey of seven of the principal cities of the East and Middle West, it is claimed that all of them are handling their traffic problems in an experimental and confused manner. Of the cities observed, Cincinnati is making the best showing in proportion to its facilities and resources, in the opinion of observers. Detroit is mapping out the most elaborate program, especially in creation of adequate traffic arteries. New York is laying the foundation for the most business-like survey and scientific study of its traffic problems. Boston and Philadelphia are reported at the bottom with little choice between them.

The control of traffic, although one of the oldest of municipal problems, remains one of the most complex phases of civic administration, especially since the advent of the motor vehicles. The mere problem of parking is stupendous, and no city has yet found a satisfactory solution. As difficult as is the problem of moving traffic, the parked car presents complications that greatly surpass it. How and where shall cities provide adequate parking space?

Shall cities preempt some of their parks for the purpose? Shall great parking buildings be provided? Shall parking be entirely prohibited in business areas?

This constitutes the most puzzling feature of the traffic problem. When it is properly solved, the problems of moving traffic and pedestrians will be greatly simplified. No city in America today can afford to delay the compilation of a definite plan for present and future conditions that will take care of the basic elements of automotive traffic as it exists today and as it is bound to exist ten years from today.

The speed limit on moving traffic will have to be increased: one way streets will have to be increasingly developed, uniform signal lights employed and some method found of earing for parked cars or of eliminating them. This is a large order but the sooner we start working on it the sooner it will be accomplished.

## LAWS OF PROHIBITION

A conference of German physicians and prominent temperance advocates has declared against all forms of prohibition laws, claiming that legal restrictions on personal freedom leads to race demoralization. They unanimously voted in favor of an educational campaign and program against intemperance, by propaganda in schools, promotion of sports and the curbing of the treating habit.

The recognition of education as a superior method of obtaining fully effective prohibition, places the German reformers in advance of the majority of temperance workers. A glance at our own recent history should give sufficient proof of the soundness of their contention. Temperance had waged such a struggle of remonstrance and entreaty and education that intemperance had become extremely unpopular, so much so, in fact, that the offender was largely ostracized. Taking advantage of the abnormal conditions occasioned by the World War, over-zealous reformers put over the prohibition amendment, with the result that those who had responded to a program of education rose up in defiance of the law have met with stubborn resistance, and much that had been gained by the long years of struggle for temperance was lost. Not only that, but the pendulum swung backward with increased force, carrying the nation to unusual conditions of intemperance and disregard of law.

Disregard of law is the greatest evil that has grown out of the present prohibition situation in this country. It is reflected in every walk of life and has reduced the morale of the nation. Eventually we may be obliged to return to our program of education, beginning again at the bottom and working upward over the same difficult path.

## GOVERNMENT ON TRIAL

One of the truest things Nicholas Murray Butler, president of Columbia university, ever said, was that parliamentary government is on trial today throughout the world. In every country there are movements tending to overthrow the existing representative governments and substitute dictatorships, communism, anarchism and socialism. In every part of the world these forces are working day by day and night by night to undermine confidence in the republic, in the limited monarchy, and to substitute a desire on the part of the people to try new forms of government, warranted to cure all the social and economic evils of the age.

"We have got to prove our right to existence or else give way to communism and fascism," says Dr. Butler. We all are put to it to improve our own forms of government or else yield to our critics. In other words, we must be active, not passive, advocates and enthusiasts for the republican form of government as we know it today. If we are merely passive there is no wall consciously erected against the insidious propaganda of the advocates of these other governments.

What Dr. Butler is of course pointing out to us is the fact that we are criminally negligent of the responsibilities which we owe our government. For instance, every time there is an election and you do not vote, you have voluntarily relinquished your only direct voice in the conduct of public affairs. Men have fought and died for that vote. Women have worked for decades for it. Yet what a small proportion of people use it! They are disfranchising themselves. They are saying, by that very negligence, "Well, I don't care. What does my vote matter?" What difference is there between that and having the vote taken away by another form of government?

We need not fear revolution and social unrest if we each accept our responsibility and perform our duties conscientiously.

The man criticizing justice usually has a kick coming because it was to blame for his downfall.

## PSYCHOLOGY FOR CONSTIPATION HABIT

In my own mind I was perfectly clear when I said the other day that one's thoughts have nothing to do with the relation of one's diet to "bowel function." And that I know psychology has its place in ridding oneself of the constipation habit. Most good rules work only one way, mind on the development or formation of the very common habit—this is the majority of cases constipation. It is a habit—this is the majority of cases constipation. It is a habit—this is the majority of cases constipation. It is a habit—this is the majority of cases constipation.

This process is controlled by the involuntary (automatic or "sympathetic") portion of the nervous system. Through certain points of contact here and there with the cerebro-spinal or voluntary nervous system, the automatic mechanism which presides over the peristaltic or wave movements of the intestine may be influenced somewhat in the direction of inhibition, or braking, so that the bowel movements are slowed down or delayed. But so far as we know, there is no natural impulse or stimulus which can influence the automatic control of bowel movement in the way of speeding it up.

I suppose this is not at all clear, even now. Well, let's put the idea in other words. One may easily cultivate constipation by dwelling habitually upon the "action of the bowels" and bothering one's head over foolish thoughts about this or that food being "binding" or indigestible. On the other hand, if by that you mean poisoning of the body by something absorbed into the blood from the intestinal cavity. That is just a refined quack's invention and the best proof I can cite you that it is purely an invention is the well known fact that thousands of people enjoy the best of health, have the best complexions, and live long and prosper although they have a bowel movement only once or twice a week.

The real explanation for the familiar symptoms which badly educated, misinformed, introspective victims of constipation habit suffer where there is a peristaltic strike, is just anxiety. Everybody with a grain of common sense knows that one can make himself sick by just feeling sorry for himself. Some neurologist said the other day that the most cultured people are the most "nervous," and he cited America as headquarters for "neurasthenia," and France as the home of the most cultured and most "nervous" people. "Neurasthenia" is just a neurologist's alibi, but properly cited this nerve specialist's idea might have something in it.

## QUESTIONS AND ANSWERS

Foods Free From Uric Acid

Could you inform me what foods, including fruits and vegetables, are free from uric acid or the substance from which uric acid is derived? (Mrs. B. R.)  
Answer—The nitrogenous material in food, from which uric acid may be derived, is called purin. The principal items which contain purin are fish, meats, peas, beans, onions, asparagus, mushrooms, oatmeal, tea, coffee, chocolate.  
Purin free foods from which no uric acid is derived, are cheese, milk, butter, eggs, fruits, bread. (Copyright John F. Dille Co.)

## THE BEST-TIMED BOOK IN AMERICAN LITERATURE

It is doubtful if ever a novel in the whole course of American literature was better timed than "Uncle Tom's Cabin." Not that it was de-

liberately timed to catch the market because Harriet Beecher Stowe knew very little about such things and was too deeply in earnest to be thinking of literary markets. That in fact was the reason it was so well timed. She was passionately in earnest because the whole country was passionately in earnest on the slavery question. Mrs. Stowe became the voice of a nation, without knowing that she was that voice. In her book the whole nation became articulate.

## IS 'BEST SELLER'

That was why the book which was published serially in an obscure magazine, "The New Era," and from which Mrs. Stowe excerpted next to nothing in money was soon selling by the hundreds of thousands of volumes. Over a quarter of a million copies have been sold in America in a few months after publication; in England 150,000 were sold the first year. In Paris dramatization of the story placed it over the heads of the stage through performance that lasted until half past one in the morning. Translations were brought out in France, Germany, Denmark, Sweden, Italy, Wales, Armenia, Russia, and in many other countries. Four months after publication Mrs. Stowe received her first royalty check and it was for \$10,000. And as the months and years passed the sale continued. "Uncle Tom's Cabin" is probably the best seller in American literature from the earliest beginnings of that literature until the present time.

And it is not likely that that due to the literary value of the book. Even when everything has been said for it that can be said, the fact remains that there are a great many American novels that are better sold of art but that have only modest sales. "Uncle Tom's Cabin" was the literary of the greatest crisis in American history and it came at the exact moment when that crisis was beginning to come to a head.

In 1852 the year it was published slavery was the one great subject of discussion. Millions were passionately excited about it. Abolitionists were being mobbed in some places. Fugitive slaves were being hunted with blood hounds. Congressmen were being elected or defeated on their attitude on the slavery issue. It was not possible not to have an opinion on it. It was a theme that stirred the passions of men and women from all classes—it was a theme that the same time aroused such intellectual as Emerson and Thoreau and all most ignorant farmer or workman who had ever helped a fugitive slave to make his escape to Canada.

INTEREST WAS IMMEDIATE  
No wonder that "Uncle Tom's Cabin" was like a lighted match thrown into a powder keg. The explosion of interest was instantaneous and covered the whole of the north. Any novelist who could time a book so well would be certain of fame and fortune, but it was not a case of clever timing but a case of the times perceiving the book. Such absolutely perfect timing cannot be done artificially. The coincidence of the time and the book in so perfect a way comes about once in a century.

Imagine what would have happened if "Uncle Tom's Cabin" had been written ten years earlier. Nothing can be said with certainty, but the probabilities are that it would have had a rather cool reception. In 1842 the slavery question had not yet aroused a whole nation's passions although the rumblings of the coming storm were already heard even then. But for the most part people wanted to ignore the issue. The abolitionists were cursed and hated in the north as well as in the south as an agitator who was disturbing business. It is likely that in 1842 "Uncle Tom's Cabin" would have won the curses of a public instead of plaudits.  
And how about ten years after it appeared? In 1862 the issue had begun to shift from slavery to union. It had become a bigger issue than slavery. It is doubtful if this novel would have aroused much attention. Bigger things were afoot by that time. The book appeared at exactly the right moment.

## MEMBER WHEN GRANDMA WORE PANTALETTES?

Paris is making a bold effort to save the short skirt fashion by introducing a demure garment borrowed from early Victorian days—the pantalette.

Much as women liked the short modern skirts many of them had confessed that they found the knee-length variety embarrassing to wear.

Skirts that actually covered the knees when the wearer was standing hitched up anything from two to four inches when she was seated.

## DEMURELY FEMININE

The obvious thing to do was to proclaim longer skirts for late summer and early autumn wear, but Paris has an inborn dislike for the obvious. Hence this daring eleventh hour attempt to save the short skirt by giving every skirt its own matching pantallettes.

There is nothing masculine about these new garments, still less any suggestion of lingerie. They are an integral part of each frock, morning, afternoon or evening.

A blue crepe de chine evening frock embroidered in silver at the hem reveals elegant pantallettes, similarly embroidered. They cover the knees, and the skirt, which is slit up at each side, reveals panels of embroidery on the pantallettes.

## ELABORATE EMBROIDERY

Jude and dull gold embroidery appears on a smart afternoon gown in navy blue crepe de chine and on its accompanying pantallettes. In this case also the skirt is cut up to show the embroidered undergarments.

A more practical phase of the new vogue is disclosed in a simple daytime frock in black and blue crepe marocain embroidered in gold.

This latest development of the trousers fashion not only removes the present objection to abbreviated skirts, but makes it possible for women to wear their skirts shorter than ever.

Stanley Staidl, assistant district attorney here, and his brother Joseph Staidl of Madison, visited their parents at Shawano over the weekend.

## Household Hints

### ICE BOX EFFICIENCY

The coolest and driest part of the refrigerator is the first passage into which the air passes after cooling on the ice. Place the milk and butter in this compartment, and keep both covered.

### RUST PROOF

If new furniture is grazed slightly and warmed slowly without burnings, it will not rust.

### WAFFLE HINT

Never wash a waffle iron. Use a steel bristled brush to keep off the crumbs and keep in good condition.

### WASH IN TIME

Remove perspiration stains as soon as you notice them because the longer they are neglected, the more difficult they are to get rid of.

### HOME BEAUTIFUL

There is on the market a new type of water proof silk that may be used very nicely for shower bath draperies or for curtains for the sun porch.

### UNUSUAL SANDWICH

If you want an unusual sandwich to serve for afternoon tea, try thin slices of nut bread, with a filling of pineapple and cream cheese. Use canned pineapple, drained of its juice and chopped in small chunks.

### THOSE SMALL FRUITS

Strawberries, cherries, currants and all small fruits that decay rapidly will keep much better if they are purchased and spread out on a platter or flat dish until needed.

### RESTORE FRESHNESS

When lettuce or salad greens are wilted, wash them carefully in a pan of cold water into which two tablespoons of lemon juice or vinegar have been added. Let stand an hour or so, then wash in cold water and they will be quite restored.

### BUYING HINT

During the summer months, purchase flour and meal in small quantities at a time, as they have a tendency to become rancid, and they are frequently attacked by worms or insects.

## MOOSE HEAR REPORTS ON NATIONAL MEET

A report on the national Moose convention held July 1 to 6 at Chicago will be given at the regular meeting of Loyal Order of Moose at 8 o'clock Tuesday night at Moose temple by W. H. Eschner, who attended the convention as delegate from the local lodge.

James Geraghty of Milwaukee, district supervisor will be a guest at the meeting.

## FASHION HINTS

### HAIRDRESSING

There seems no trend in favor of long hair, and the most smartly dressed women are closely shingled. Occasionally part of the hair is allowed to be long enough to be worn in biscuits over the ears.

### CONTRAST EMPHASIZED

The printed chiffon frock for this summer has many fluttering points and is usually outlined with bands of plain color, or trimmed with lace inserts.

### STRIKING EFFECT

A black taffeta frock that is unusually lovely is trimmed with squares of white argandine and a pink rose at the fastening of the high collar.

### YOUTHFUL STYLE

Second in popularity only to the white polka dot on white, ground is the red polka dot on white. It is a most youthful and dashing combination, excellent for the country.

### DECORATIVE

Confetti prints on a white or black ground, which look exactly as if bags of confetti had been dumped on a plain surface, are extremely amusing and much liked in Paris.

### BECOMING

A new shade of blue, a bit grayed and faded, is being exploited—possibly because it combines so beautifully with pink, and makes such a delightfully feminine outfit.

### SOPHISTICATED

Neutral backgrounds are stressed this season, and the color that is used to accent it is made all the more important.

### BLACK AND WHITE

A charming ensemble idea is the coat flat crepe lined with the white chiffon frock and the large black hat.

## Women Find

Great comfort in this new  
hygienic pad that dis-  
cards easily as tissue—  
no laundry

ON many important counts, women are deserting the old-time "sanitary pad."

There is a new way. A way that multiplies protection. A way, too, that solves the old problem and embarrassment of disposal.

It is called "KOTEX." Ends the insecurity of the old-time sanitary pad. Five times as absorbent! And odorless—ends ALL fear of offending.

✓ As easily disposed of as a piece of tissue. No laundry. No embarrassment.

You get it at any drug or department store simply by saying "KOTEX." You ask for it without hesitancy.

Costs only a few cents. Eight in 10 better-class women employ it. Proves old ways an unnecessary risk.

## LASCH SINGLES IN WINNING RUN IN 10TH INNING

New London Ekes Out 5 to 4 Victory Over Waupaca Team

Special to Post-Crescent  
New London — The city baseball team edged out a close win over the Waupaca aggregation by the score of 5 to 4 at the local park on Sunday afternoon. The game was the best played here this season.

The win for the locals was probably due to Lasch, star hurler, who pitched six innings of excellent baseball. Early in the sixth inning, he was hit in the leg by a batted ball and retired. "Dutch" Wahl took his place in the box and the lead slipped from New London at the end of the ninth inning, the score was 4 to 4.

In the tenth Lasch took his stick, and hobbled out to the plate. The ball soared into the field and Wahl streaked for home with the winning run.

The locals were especially anxious to beat Waupaca, as that team had defeated New London on Independence Day by the score of 9 to 3. The next game for the Sturtevant will be played Sunday on the local field with Bear Creek.

**GET JESUIT PRIEST TO HELP IN SUMMER**

## TENNIS GONFALON TO ST. MITCHELL AND BERENS TEAM

Defeat Elmer Ott and Amay Bayorgeon in Fiercely Contested Sets

Kaukauna—Alphonse Berens and Gilbert St. Mitchell fought their way to the city doubles championship in the city Sunday afternoon by defeating Elmer Ott and Amay Bayorgeon in two hard fought sets. The counts were 6-2 and 8-6. Berens and St. Mitchell took the first set rather easily but had difficulty in getting the second when Bayorgeon and Ott were fighting with their backs to the wall. The local courts for some time earlier in the day Berens and St. Mitchell defeated Koch and Welch in the first round of play and drew bye in the second round.

Matches started at 8 o'clock Sunday morning for the first round. Berens and Mitchell took an easy match from Welch and Koch in two straight sets 6-2 and 6-0. Welch and Koch were sadly outplayed in the second set.

Jacob Hovde and Jack Farwell defeated Otto Runtte and Carl Chorn in straight sets 6-3 and 6-2. The match was hard fought but the aggressiveness of the former pair won for them. They were quick on return and had efficient service.

James McFadden and Byron Bielek took the first set 6-0 from Robert Brooks and Gordon Van Leshout and the second 4-6. They found a great deal of trouble awaiting them in the second set with Brooks and "Van" on edge and playing their hardest.

Amay Bayorgeon and Elmer Ott won a bitterly contested match from "Bill" Haase and Frank Spindler. Although they won two straight sets they were forced to go their best to win. The counts were 6-3 and 6-4.

John Gottfried and Milton Metz lost the last match in the first round to Carl Runtte and Alfred Ristau in straight sets 6-1 and 6-3. The latter pair played a decidedly fine game and were deserving of the win.

Hilton Engerson substituted for Jacob Farwell in the second round. Jacob Hovde and Harold Engerson met Carl Runtte and Alfred Ristau in the first match in the second round. Engerson and Hovde lost the first set to Runtte and Ristau 6-1. They were unable to get started in the set. In the second set Engerson and Hovde seemed to have found themselves and put such a fierce fight up that they deuced the set and won it 8-6. Many of the games were deuced. The last and deciding set went twenty games before Engerson and Hovde finally won the decision.

In the same round Elmer Ott and Amay Bayorgeon defeated Byron Bielek and James McFadden 10-8 and 6-2. The former pair had difficulty winning the first set but cleanly outplayed McFadden and Bielek in the second. Berens and St. Mitchell drew bye in this round.

In the semi-finals Ott and Bayorgeon drew bye and Berens and St. Mitchell met Hovde and Engerson for the right to play Ott and Bayorgeon in the finals. Berens and St. Mitchell wended their way to an easy win over Hovde and Engerson. The counts were 6-2 and 6-1. The superior service of the victors was a big advantage to them.

Ott and Bayorgeon were awarded second place in the tournament and Hovde and Engerson third.

**SCHEDULE 3 MATCHES IN TENNIS TOURNEY**

## 1,600 H. S. GRADS WILL CONTINUE WITH EDUCATION

U. of W. Extension Division  
Completes Survey of High  
School Seniors

Out of 2,963 graduates of the 88 high schools in the 15 counties of north and central eastern Wisconsin, 1,093 are planning to attend universities, colleges or normal schools, according to information secured by the second district office of the University of Wisconsin. This does not include the 129 students who expect to attend county training schools, the 84 who will receive training in business colleges, or the 94 who will attend nurses training schools.

Thus the total of 1,600 high school graduates will receive further school training next fall in the 15 counties served by the second district of the University Extension division.

**PLENTY OF TEACHERS**  
There will be no shortage of teachers during the next few years, according to vocational intentions declared by the pupils of the various schools. The total number of those who plan to become teachers is 515.

Prospective stenographers also second in number with 323 students. There will be 182 nurses, 119 students who will study music, and 16 who generalized their careers under "business."

Only 20 students declared their intentions to become farmers, but 25 will study agriculture. The difference is not clear, but the "agriculturalists" probably plan to teach the art, while the "farmers" are presumably just plain dirt farmers.

**TWO MISSIONARIES**  
Eight of the graduates declared their intentions to become missionaries, while two will become missionaries. Among the professions there will be 121 engineers, 45 doctors, 24 dentists, 23 chemists, 32 journalists, 35 lawyers, 49 accountants and 27 artists.

Prospective electricians or electrical engineers will total 102 according to the plans of the students. That forestry is making rapid strides may be gleaned from the fact that 32 students plan to take up the study of this comparatively new field in America. Politics and all that pertains to it seems to interest the graduates not at all, for no student has declared his intention to study political science. One will study philosophy.

Five students plan to become plumbers, five will be merchants, seven will study economics, and seven will become social workers. There will be three surveyors. Fifty-eight plan to become physical directors.

**LAWRENCE GETS 167**  
Out of the total of 2,963 students in the 15 counties, 253 will attend the University of Wisconsin, 182 go to Lawrence college, 133 to Marquette university, 65 to Ripon college, 31 to Carroll college, 10 to Milwaukee Downer, and 5 to Beloit, and 122 will attend out of state schools. Attendance at normal schools will be as follows, according to plans of the students: Oshkosh, 142; Milwaukee, 68; Stevens Point, 33; LaCrosse, 21; Wausau, 15; Platteville, 8; River Falls, 2; Eau Claire, 1; Stout institute, 5. The various county training schools will draw 123 students: business colleges, 254; and nurses training schools, 94.

Out of the 195 Appleton high school graduates questioned, 48 are planning to attend Lawrence college, 10 hope to attend the University of Wisconsin, 6 will go to Marquette university, 8 will attend Oshkosh normal, 2 will go to LaCrosse Normal, and 2 to Stout institute. 9 are planning to attend out of state schools, 3 will enter nurses' training schools, 3 will attend the county training school, and 1 will go to a business college.

The following number of high school graduates of neighboring cities and villages plan to attend the educational institutions named:  
University of Wisconsin—Chilton, 3; Hortonville, 2; Kaukauna, 4; Menasha, 1; Neenah, 6; New London, 6; Seymour, 2; Shiocton, 1.  
Lawrence college—Bear Creek, 2; Chilton, 1; Freedom, 2; Hortonville, 2; Kaukauna, 6; Menasha, 5; Neenah, 7; Seymour, 2; Wausau, 2; Weyauwega, 1.

## STAGE AND SCREEN

### A PHOTOPLAY OF DRAMA AND AND BEAUTY

"The Lodge in the Wilderness," at the new Bijou three days starting today is based on a story of the same name by Sir Gilbert Parker.

In the cast of this tremendously interesting dramatic story of a lumber camp are Anita Stewart and Edmund Burns, the featured players who are ably assisted by Victor Potel, Duane Thompson, Lawrence Steers, Eddie Lyons and James Farley.

There have been many forest fires depicted on the screen, but the one that is staged in this drama, if once seen, will never be forgotten by an audience.

The acting of Miss Stewart and Edmund Burns was of the highest quality, their scenes being not a bit overdrawn and with a naturalness that carried conviction.

Credit, too must be given to Director Henry McCarty who made his

## NOTICE CITY WATER USERS

On account of water conditions many people are compelled to use city water for washing and are inconvenienced because of its hardness.

To overcome this add one teaspoonful of Rub-No-More Washing Powder (the Original Soft Water Softener) to each gallon of city water. IT SAVES SOAP.

Besides its 15 household uses it is the only cleanser that will clean sinks and tubs and dissolve upon rinsing. No sand left to clog drain pipes.

story held the audience's interest throughout and in selecting some magnificent and gorgeous settings.

## BEWILDERED BY BIG CITY WAYS

"The Wilderness Woman," the new Robert Kane production for First National now current at the Elite Theatre here, tells the story of an Alaskan miner and his daughter, who, having suddenly struck it tremendously rich in the far north, set out for New York. The adventures that befell them when, for the first time, they came in contact with the conventions and restrictions of modern civilization, are productive of the comedy.

Arthur Stringer wrote the story for the Saturday Evening Post, where it appeared as a serial.

In the roles of the rich miner and

his daughter Chester Conklin and Aileen Pringle appear to attractive advantage. This is Miss Pringle's first comedy part, and she is a different actress from what she has been in the Elinor Glyn and vampire roles that have been hers heretofore. Lowell Sherman, usually the villain, appears this time as hero. Others are Henry Vibart and Robert Cain and a cute and amusing little bear cub.

Howard Higgins directed the picture from a scenario prepared by Paul Burn and Paul Schofield.

THE UKELELE WIZARD OF KYW

IS ON THEATRE BILL

The World's premier ukelele player, Henry Dixon, who is now appearing at Fischers Appleton Theatre, is drawing a big hand every performance. His exceptional performance

on stringed instruments is making him one of the most popular features ever acquired by a local motion picture house. Henry, as he is called by the boys at the radio station KTW in Chicago, hails from Dixie, where he learned to play as a boy, first broadcasting from station WHAS.

Betty and Jerry on the same bill present a pleasing musical act with the act of piano, and guitar. They render several vocal selections, both of the "blue" and ballad variety.

The feature photoplay is "The Palm Beach Girl," and we do not stretch the truth a bit when we say that it is the peppiest, fastest, film that Bebe Daniels has ever appeared in. She is supported by Larry Gray, the Paramount player who is becoming popular with the men as well as with the women following his appearance in several successes.

## The Thing To Do

To make your jams and  
jellies perfect every time

By Elizabeth Palmer

The old, anxious days of kettle watching and speculating on what "luck" you will have with your jam or with your jelly, are over.

Now even an inexperienced cook can be absolutely sure of success every time. For the new, short-boil method with Certo never fails. You just bring your fruit and sugar to a boil, add Certo, boil it a minute or two, and it's done—ready to skim, pour and seal.

And the beauty of it is that this short boiling time saves the color and flavor of your fresh fruit, so that your jams and jellies look better and taste better. Besides, since you do not boil the juice away, you get so much more jam or jelly from your fruit that you save two cents or more on every glass.

Now each bottle of Certo comes a book of recipes for your favorite jams and jellies—and some delicious new ones! Your grocer carries Certo, or you can send 10c (for postage) and get a trial half-size bottle which will make from 6 to 10 glasses of jam or jelly, depending upon the recipe used. ## APPLETON HOST AT SAENGERFEST FOR 4TH TIME

City Entertained East Wisconsin Saenger Bezirk in 1895 for First Time

Appleton will entertain the East Wisconsin Saenger Bezirk next week at the 1926 Saengerfest for the fourth time since the formation of the organization in 1892. Other similar sing-fests were held in Appleton in 1895, 1909 and 1921.

Only seven organizations representing six cities, participated in the first Saengerfest of the East Wisconsin Saenger Bezirk way back in 1892, immediately after its organization, according to a history of the State Bezirk which was printed in the second fest-paper of this year's event. The fest-paper was sent out last week as a part of the publicity telling of the three-day program which is to be held in Appleton July 16, 17 and 18.

The first fest was held in Sheboygan and the following organizations were represented: Appleton Liederkranz, Manitowoc Friar Sangerbund, Kiel Maennerchor, Plymouth Liederkranz, Port Washington Concordia, Sheboygan Liederkranz and Sheboygan Concordia. A few more than 100 singers took part.

In comparison with the first Saengerfest, more than 700 singers will take part in the 25th Saengerfest here next week. Twenty organizations and 18 cities will be represented and more than 15,000 visitors are expected.

In 1893 the second Saengerfest was held at Port Washington; 1895, Appleton; 1897, Manitowoc; 1898, Chilton; 1899, Plymouth; 1901, Kiel; 1902, Two Rivers; 1903, Brillion; 1905, Sheboygan; 1907, Manitowoc; 1908, Fond du Lac; 1909, Appleton; 1910, Plymouth; 1911, Manitowoc; 1912, Marinette; 1913, Sheboygan; 1914, Elkhart Lake; 1915, Kiel; 1916, Green Bay.

In 1916 the Saengerfest was to be held in Appleton but on account of the World War it was postponed and was held here in 1921; 1922, Sheboygan; 1923, Manitowoc; 1924, Marinette; 1925, Merrill.

## AWARD CONTRACT FOR LAFOLLETTE STATUE

Madison—(AP)—Jo Davidson, New York sculptor, has been given the contract for a statue of the late Senator Robert M. La Follette to be placed in the Hall of Fame.

Governor John J. Blaine announced Saturday that he had contracted with Mr. Davidson for the statue to be sculptured and erected, according to the type of figure and design selected by Mrs. La Follette and the family, for \$40,000.

Mr. Davidson has been working upon a half-sized model of the statue, in his studio in Paris. The governor announced. After this model is complete the full-sized figure will be sculptured.

By an act of congress, each state is invited to provide and present to congress for erection in the Hall of Fame or Statuary Hall, in the national capital at Washington, statues of two of its deceased residents, of historic renown, whom the state shall determine to be worthy of such national commendation.

The state of Pere Marquette, the explorer and missionary, was formerly authorized and erected, and by an act of the legislature in 1925, a statue of Senator La Follette has been designated for the other statue of a Wisconsin resident.

## CLINTONVILLE DOG ORDINANCE LAWFUL

Madison—(AP)—Cities can prohibit dogs from running at large during a certain period except when the animals are under the direct control of their master, Michael J. Dunn, Jr., assistant attorney general, Saturday advised Otto L. Olen district attorney of Waupaca.

An ordinance at Clintonville prohibiting dogs from running at large from June 1 to Sept. 1 except under the direct control of their master, and providing for a fine for violations, is a valid exercise of the police power of the enacting body and therefore constitutional, it was held.

## JOBS ARE SCARCE IN PAPER MILLS, REPORT

Jobs are scarce in local paper mills, according to a survey made of employment managers of the plants. Men are plentiful, superintendents reported, and as many as 25 applications for work are received daily.

Although there are many contractors looking for help, this type of work doesn't seem to appeal to workmen, who accept construction work only as a last resort. Orders during the past few months have been exceedingly light, but local paper mills have been making efforts to keep all their men employed. Up to the present time none have been laid off.

One manager said that the abundance of labor was caused by lack of work in the northern part of the state. Many paper mills there have shut down entirely or are operating on a low schedule, and are using only a few of their older employees. He said many men from the northern part of the state have applied here for work.

## 124 BOATS PASS LOCKS IN JUNE

Tonnage Is Smaller Than for Same Month Last Year, Records Show

A total of 124 boats carrying a tonnage of 19,614 pounds, passed through

Appleton locks in June, according to the monthly lockage report at the United States Engineer's office. This number is practically the same as for May but is less than for June, 1925. An average of 4 boats passed through the locks here every 24 hours, while last June the average was about seven.

However last year the boats of the two companies operating on the Fox river, the Cook and Brown Navigation company of Oshkosh and the Fox River Navigation company of Kaukauna, were operating boats day and night, while during the past month

neither of the companies operated night boats for about three weeks.

DePere locks cared for the largest amount of tonnage last month with 24,489 pounds. An average of 8 boats every 24 hours passed through the DePere locks. At Kaukauna 211 boats during the month carried a tonnage of 32,258 pounds. At Little Chute 128 boats carried 26,147 pounds and at Menasha only 47 boats passed through the locks in June, carrying 9,759 pounds.

## WIFE SEEKS HUSBAND TO OBTAIN DIVORCE

Publication of a summons is being made in an effort to locate Lyle Connors, defendant in a suit for divorce brought by Violet Connors, in her complaint Mrs. Connors charges her husband with cruel and inhuman treatment, alleging specifically that he made an assault on her and their child with a butcher knife in October, 1920, and that he threatened to kill her and the child. On another occasion, in May, 1921, Mrs. Connors alleges that her husband struck her and knocked her unconscious in the presence of witness, and ordered her to leave their home.

Mrs. Connors also alleges non-support for the past four years. She asks the custody of their 6-year-old son, and that a just and equitable relief be set by the court. The Connors were married on Oct. 12, 1913, at Shell Lake, Wis.

## \$15,000 In Richest Savings For You

Flushed with the success of the first week of our great sale that left its incomparable imprint on Appleton we are ready for the next step which is the second week that will sweep Outagamie county with a force of bargains impossible to intelligently picture in this advertisement. We realize that our first loss is the best and the smallest. Had we sold ladies' high shoes in 1920 regardless of value the loss would have been much smaller. Business experience has taught us much. This store has won distinction by serving the people faithfully, frankly, and unflinchingly. This sale is the surprise of the entire community. The public realizes that the success of this sale is due to the bargains that are sold.

No man or woman living within 50 miles of Appleton should miss this event. Don't be sorry later. We doubt if we will repeat many of these bargains later in our history. Today the entire community is talking about this sale. Again we say—don't possibly miss it!

## NEW CATHOLIC PARISH TO BE ORGANIZED HERE

Begin Preparations for Building Church and School on E. Wisconsin-ave

Definite steps toward organization of a new Catholic congregation in Appleton were taken Sunday when a letter from Bishop Paul P. Rhode of Green Bay, announcing the new parish, was read in St. Paul and St. Mary churches, and a meeting of persons who will be in the new congregation was held in St. Joseph hall. Property has been acquired on E. Wisconsin-ave, near Durkee-st., for the new church on which work probably will be started in the very near future. It is planned to build a combination church and school that will be ready for use by Sept. 1 of next year.

The new congregation will have about 275 families, taking about 200 from St. Joseph congregation and about 75 from St. Mary. The new church will serve Catholic families living north of Atlantic-st and east of Richmond-st as far north as W. Wisconsin-ave and all families north of Wisconsin-ave between the boundaries of the Greenville, Mackville and Little Chute parishes.

### HAUCH AS PASTOR

The Rev. John O'Donovan of St. Joseph church, assisted by the pastors of St. Joseph and St. Mary churches, will have charge of building operations and it is reported that the Rev. Matthew Hauch of Greenleaf, formerly assistant to Msgr. W. J. Fitzmaurice at St. Mary church, will be the pastor when the church is completed.

Announcement was made Sunday that members of St. Joseph congregation will be asked to give \$30,000 and St. Mary church \$15,000 toward the new building. The remainder of the money required will be subscribed by members of the new congregation. Establishment of a new Catholic congregation, the fourth in Appleton, has been under consideration for several years and property on which to build a church was acquired some

time ago. St. Joseph and St. Mary congregations have grown so large that the church and school buildings no longer are adequate to take care of the parishioners and it was felt by Catholic authorities that a church should be built in the northern part of the city to serve people living in that territory.

A substantial sum was pledged at the first meeting of the new parish and a house to house canvass of members will be started at once so that a determination can be made of the amount of money that will be available for building the church and school.

## CHESTERTON IS AGAINST MOVIES

Debates Status of Cinema With Betty Balfour, Film Star

London —(AP)— G. K. Chesterton thinks it is a great pity the film and the radio and other modern inventions have lessened the opportunity of the public to meet politicians face to face and tear them to pieces.

He and Miss Betty Balfour, the film star, are debating "Should the Cinema Be Tolerated?"

Miss Balfour declares it is impossible for the public not to tolerate the film, as it has come to stay and will become more and more popular both as an educational and as an amusement factor.

"What would the magistrates do if they didn't have film to blame for all the wrongdoings of bad boys?" she demands.

Miss Balfour maintains the film has made people travel the world over and think about places they would never have dreamed of. The masterpiece of literature have been revealed by the film to persons who would never have known about them otherwise. She pleads for better scenario writing done without thought of book publication.

"G. K." declares the film and the modern newspaper create an illusion of unreality and make a lot of persons believe they know something when they are really grossly ignorant. Many persons who are lazy, or too ignorant, to read a book believe they know all about it because they have seen a miserable screen version of the story.

He believes the future of dramatic art lies in a tendency away from the film. He thinks the greatest possible number of persons should be encouraged to take part in dramatic performances and create local theatres all over the world.

Mr. and Mrs. Theodore Paeth, 215 E. Fremont-st., and Miss Antonette Ruth and John Ruth, both of Milwaukee, have returned from a 2-weeks' vacation at Shawano lake.

## BIG CROWD ATTENDS CONCERT OF ELK BAND

Greeted by an immense crowd, the newly organized 32k band made its first public appearance in its new uniforms Saturday evening in parade and concert. The parade, in which members of the Elk lodge took part, started in front of the clubhouse shortly after 7 o'clock. The concert followed the parade at about 8 o'clock at the clubhouse.

The band, together with about 75 members of the lodge, will leave Tuesday afternoon for Chicago to attend the national convention which opened there Monday. The convention will last until Sunday. The band will enter the contest for musical organizations. Dedication of the new Elk Memorial temple in Chicago, which cost approximately \$5,000,000, will be one of the principal features of the convention.

## TOURISTS INCREASE AS WEATHER GROWS WARMER

With the arrival of warm weather last week, the volume of tourists going through Appleton has increased appreciably, local hotel proprietors report. Tourists are still fewer in number than they were at this time last year, however.

The usual increase in traffic over the weekend was reported at Appleton hostilities. None of the hotels were crowded to capacity, although all enjoyed a good business.

If present warm weather continues for any length of time, an increase in the volume of tourists is anticipated. Many persons who had planned tours to northern Wisconsin have postponed them, rearranging their plans so as to make their trips later in the summer or in fall.

## BALLARD'S PAPERS CIRCULATED HERE

Nomination papers for C. B. Ballard, who recently announced his candidacy for state treasurer on the Republican ticket, have been received here. Mr. Ballard has until July 25 to file his nomination papers with the secretary of the state. He must get at least 3,117 signatures to have his name placed in nomination. This is 1 per cent of the state presidential vote in 1924.

Mr. Ballard was state treasury agent for several years.

### BODY OF SLAIN POLICE OFFICER REACHES HOME

Former Menasha Young Man  
Shot in Gun Battle With  
Bandits

Menasha—The body of Earl J. Kobinsky, of the Detroit police department, who was shot while pursuing bank bandits Friday afternoon, arrived in Menasha on the 7:37 Northwestern train Sunday night and was taken directly to the home of Mrs. Kobinsky's parents, Mr. and Mrs. Joseph Jakowski, 109 First-st. The funeral will be held at 9 o'clock Tuesday morning at St. John's church. The services will be conducted by the Rev. John Hummel.

Mrs. Kobinsky and children, Carl, Kobinsky, a brother of the patrolman, and Sergeant Barcher, a member of the Detroit police department who was detailed to represent the department at the funeral, arrived in Menasha at 4 o'clock in the afternoon.

Mrs. Kobinsky said her husband was shot in the neck and died within 15 minutes after reaching Providence hospital, Detroit. Ben McCarty of Columbus, O., a bandit suspect, was also killed in the gun battle.

**RECOVER \$5,500**  
The holdup was at the State bank at Plymouth, Mich., a few miles from Detroit. The \$5,500 which the four bandits obtained was recovered. Patrolmen exchanged 50 shots with the bandits, three of whom escaped a field.

Plymouth officers notified Detroit officers that a bandit in a roadster was headed for Detroit after the holdup. Patrolman Smith of Detroit was the first to sight the bandit car. He signaled Patrolman Kobinsky and McPherson, who were in a police scout car which gave chase. Smith borrowed an automobile and followed.

The scout car had taken a short cut and the bandits found their way blocked. All four of them opened fire and Kobinsky was wounded. The bandit car drove around the police scout car when Smith came from behind and began shooting. The bandits drove until the driver, McPherson, collapsed at the wheel. The others jumped from the car, leaving the loot from the bank behind.

Patrolman Kobinsky was treated in Menasha and served 18 months in the World War. He was wounded in France by shell and was in a hospital for a portion of the time. He had been a member of the Detroit police department for five years.

He is survived by his widow; four small children, Marie, Helen, Earl Albert; mother, who resides at Fairchild, Wis.; three brothers, Carl, Detroit; John, Neenah; Julius, Fairchild; and six sisters, Mrs. John Pawlaczky, Neenah; Mrs. Leo Johnson, Eau Claire; Mrs. Ella Frobese, Chippewa Falls; Mrs. Fred Gronow, Patoka, and Mrs. Lottie Kerns and Mrs. Floyd Pezer, Milwaukee.

### CONTEMPT OF COURT ACTION IS DISMISSED

Menasha—The contempt of court action brought against Frank Neuser of Menasha Motor Car company by H. Litterap of Neenah was dismissed Friday by Judge Beglinger in circuit court at Oshkosh on the ground there was no willful disobedience of an injunction order.

The temporary injunction restraining him from using his yellow taxies in Neenah will come up in circuit court at Oshkosh next Thursday, when it will be decided whether the order will be vacated. The plaintiff in the action operates a rival taxi line. Mr. Neuser is represented by Bullard & Spengler of Menasha.

## In the Days of Pompeii

THE first known classified ads were used almost 2000 years ago—which gives this type of advertising a fairly ancient pedigree of public service.

They have been found on stone "billboards" dug up in Pompeii, the Roman city buried by a volcanic eruption.

Here is one of the "ads" discovered in Pompeii by Prof. David M. Robinson, of Johns Hopkins University:

"TO RENT, from the first day of next July, fine upper chamber and a house in the Arrius Pollio block, owned by Gnaeus Marius."

And the earliest of all "Lost and Found" ads:

"A COPPER POT is missing from the shop of Antonius. Whoever brings it back will receive 65 sesterces."

When you want to use an up-to-the-minute classified ad—A.B.C. model—edition of 1926—just call one of our pleasant-voiced operators!

# NEIGHBORS' WIVES

**BEGIN HERE TODAY**

**JOHN** and **FAY** **MILBURN** buy a home when their baby girl is born and the advertising agency in which John is partner and copy writer lands a new contract. Among their acquaintances are—

**NOEL** and **VERA** **BOYD**, whose marriage is strictly "modern."

**PAT** and **MARIAN** **FORBES**, who have three children and whose domestic life is unhappy because of Pat's roving tendencies. Previous chapters told how:

John was fascinated on meeting **NEEL** **ORME**, of whom Pat Forbes hints that she is having trouble with her husband.

When Fay took **JUDITH**, the baby to Chicago, to visit her parents, John "ran around" a good deal, mostly with Pat Forbes.

When Fay returned, she had retained some of his doings and greatly exaggerated them, he greatly. Sharp quarrels followed, one of which drives him "out on a tear," and when Fay learns he has been out again with other women she threatens to leave him if it is repeated. He begins to think she dislikes him, whereas it is only a fear that he will get into trouble.

He becomes aware that he is being talked about. **NAT** **GRAMHAM**, his partner, blames the loss of a client on the "damaged reputation" John was giving the firm, and John is filled with resentment. Fay breaks with a neighbor because of a piece of malicious gossip, and John is so loyal that it begins to look as if they had again reached an understanding. However, she falls out with another one over Judith, and this time John is unsympathetic and it reopens the wound.

Pat and Marian Forbes give a party, and there John again sees Neel Orme. Later in the evening he finds her alone on the porch and finds himself wanting to take her in his arms.

**OW GO ON WITH THE STORY**  
(The names and situations in this story are fictitious.)

**CHAPTER XLII**

He found himself taking her hand and she turned quickly and looked at him. Beneath her steady, quivering gaze he felt her hand fall, and at once she dropped her eyes and turned away again.

Better not, he reasoned. She might be offended, might misunderstand, and he would feel like a fool. He did not want to think we'd better in the others? They might be wondering, you know, and he was sure, he stood aside to let her pass through the door, that her hand pressed against his purposely.

He followed her through the house and emerged on the front porch feeling like a man who had been caught with his fingers in the jam jar. But he noticed them particularly. He saw, was still talking animatedly with Paul Davidson, who seemed to be at his best tonight. Neel, leaning close to him as she helped him, serve refreshments, said, "Don't forget the race," and Pat took her up. "Have you picked John as a victim again?" he said loudly.

Howard Orme was smoking a cigarette in silence and Pat asked Neel if he was going in swimming. "Not over," Neel retorted, and Pat said, "Well, I'll try to get you drunk, son."

An hour later Pat and Neel Orme were distributing bathing suits, some which were old looking affairs, but which were still useful and moth-eaten. "I'll get arrested for indecent exposure if I wear this thing," complained Paul Davidson, holding up a dilapidated suit of faded red.

"Aw, no one's looking," growled Orme. "Besides, the moon has gone behind a cloud."

Marian Forbes had pressed her own suit on Fay, and she and John came down to the beach together, followed by the rest of the party, all of whom insisted on not going to the water.

Fay shivered about in the shallow water and John patiently tried to make her strike out and swim. But he was too cold, she said, and after he dive she contented herself with lying on the sand near the bonfire and helping Marian Forbes toast marshmallows.

Neel came wading out to the springboard and he followed her as he climbed up to the little platform. "Coming?" she called to him as she stood bouncing gently on the board. "I'm ready," he answered, and saw her muscles tighten as she gathered them together for the dive, saw her arms shoot out and her feet leave

about it if we're going to start bickering at each other. I never will understand women if I live to be a hundred years old."

"You seem, though, to have a deep sympathy for some of them."

Paul Davidson came swinging jauntily into John's office the next morning, a new pearl-gray felt hat perched at a rakish angle on his head, a light-colored cane dangling from the crook of his arm.

"Come on out to lunch, John."

John looked rather dubiously at the pile of papers on his desk. "Come, come," insisted Paul.

"Well, if you don't keep me too long."

Davidson had nothing important to tell him, only that Rita Johns had signed a contract with a Broadway show and he had found a new and far more interesting "affair."

"Well, don't come to me again to get you untangled," John smiled.

"No fear," said Paul. "By the way, I thought I'd tell you that Eleanor Mason seemed to have the hammer out for you last night."

"She did, eh? Well, so have a lot of other people."

"I'd heard a few remarks to the effect that you're hitting the high spots but I laughed at them, knowing you for the old Puritan that you really are. But why all the vitriol from Eleanor?"

"Well, don't let it get past you—it's a rather catchy remark."

Paul held up his hand. "My sacred word."

"Nothing much. She lured me into a rather intriguing flirtation, but just when I was getting interested she got coquettish."

Paul nodded. "I know—they all do it."

"I got rather disgusted."

"Don't blame you. I can understand why she's peeved."

John went back to the office and spent most of the afternoon with Briggs, discussing layouts. Nat Gramham looked up wordlessly at his entrance and then turned back to his dictation.

Briggs said, "What's the matter with the senior partner?" and John shrugged. "Don't know, Briggs; think I've peeved him."

"Well, if you ever split, I'm with you."

Split? The thought never occurred to John as something likely to happen. And yet things couldn't go on forever this way.

"Thanks," he said shortly. "I won't forget."

He met Clara Lane on the street the next day as he was wandering off to lunch. She had eaten, she said in answer to his invitation, but she would have a cup of tea with him. "I wanted to tell you that the divorce was moving along smoothly," she told him.

"Good," he commented, and they discussed Clara's plans for the future. It seemed that she was resuming her piano lessons with a view to teaching later on.

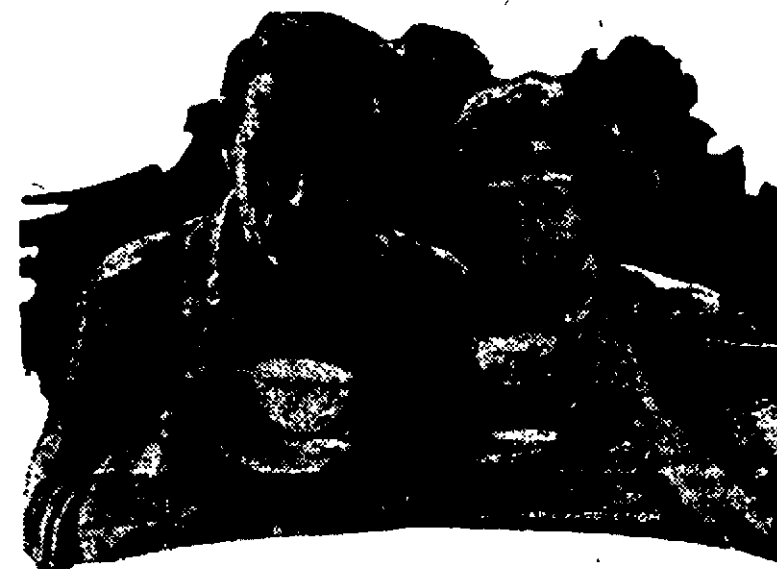

He told Fay that evening that he had lunch with Clara. "Thought I'd let you know before someone else told you first," he added.

She looked at him reproachfully and made no answer. This wall that was rising between them was almost breaking her heart. She wanted to say to him, "John, you're breaking my heart, talking like that," but pride prevented her.

And John was sorry the minute he had made his sarcastic announcement. He wanted to tell her that he loved her, that henceforth he would try to be more considerate of her. But he couldn't help thinking that Fay was beginning to dislike him. "If she'd only indicate that she was willing to start all over again," he thought, and went to his favorite chair before the fireplace, to smoke his pipe in moody silence, not knowing that Fay, planning up accidentally from her knitting, was regarding him with tearful eyes.

And then the thing happened that scarred their lives.

If there had not been this coldness

SCENE FROM "THE LODGE IN THE WILDERNESS" AT THE NEW BIJOU THREE DAYS STARTING TO-DAY.

between him and Fay, this feeling on his part that he was becoming more incidental to her existence with each passing day, he probably would have steered clear of it. But—

He was surprised several days later to receive a telephone call at his desk from Vera Boyd.

"I wanted to know if you could drop in for tea tomorrow afternoon," she said.

Tea—in her house? He demurred, as politely as he could, his old hostility for Vera mounting.

But she was insistent. "It's important," she told him. "I wouldn't ask you otherwise."

"Well, what is it? Tell me."

"No." She laughed mysteriously.

"When you come you'll be glad I invited you. And John—"

"Yes?"

"Don't say anything to Fay."

Well, now, who shouldn't he say anything to Fay? Why all the mystery? But she refused to say anything more and hung up after getting his promise to be out.

John was rather uncomfortable that evening at home. It seemed unfair to Fay, this business of running off to tea at Vera's, especially in the face of an unexpected pleasantness in Fay. He told himself that he wouldn't let himself in for anything foolish. He'd be dogged if he would!

Four o'clock the next afternoon

## WOMAN STARTS NEW STYLE IN PARLIAMENT

London.—(P)—Miss Ellen Wilkinson has earned for herself the title of pioneer among the women members of parliament in more ways than one. She was the first woman M. P. to bob her hair, the first to shingle and only recently the first to adopt the Eton crop. None of her colleagues has followed her in any of these fashions.

Now she has gone pioneering again, and is the first woman M. P. to drive her own car to the house.

found him turning up the street in which was the Boyds' little brown shingle home. Vera heard the car drive up and met him at the door. "You were right on time," she said. "Now come in, and try not to be surprised."

"What the 'ikens—" he began, but she slipped her fingers over his mouth.

The tea wagon, he saw, bore three cups and saucers. Who, he began to wonder, was the third? Was it Noel?

And then he heard someone descending the stairs. He glanced questioning at Vera, who shook her head mysteriously and held up a warning finger.

A familiar voice said, "You there, Vera?" and his pulse suddenly was racing madly. That voice, low and throbbing—it belonged to Neel Orme.

And it was Neel. She suddenly hove into view, and at sight of him a startled exclamation came from her lips.

# No Idle Water!

**THE** scientific design of the Maytag cast aluminum tub, together with the gyrotator action, creates an unusually cleansing, more turbulent water condition in every inch of the tub all of the time. A water action that puts every drop of water—every bit of soap suds to work.

This more cleansing water action, found only in the Maytag, washes clothes clean in half the usual time—washes bigger tubfuls in but 3 to 7 minutes. Does a whole washing—50 pounds of clothes (dry weight) in one short hour. Washes everything without hand-rubbing—even collars, cuffs and wristbands.

The Maytag has no waterline. A few pieces are washed just as effectively in a pailful of water as a big tubful of clothes are washed with the tub filled to the brim.

Phone the nearest Maytag dealer! Use a Maytag in your own home without obligation or expense. Test it thoroughly. Compare it with other washers. If the Maytag doesn't sell itself, don't keep it.

## Her Own Way

A STORY OF A GIRL OF TODAY

WINNING  
 "I cannot understand Julia," said my father, "why you always want to compare yourself with a boy—why you are always telling me that you would like to do some kind of work beside that which God ordained you to do. To be a wife and mother is the most beautiful thing on earth, and I should think you would much rather be a girl, because then you'd know that if you behaved yourself, there would always be some man—your father or your husband—to take care of you."

"Don't be silly, I said that to you because I could not understand your crazy intention of going to work. Certainly I have never wanted any of my women to work. I am giving you this money as an experiment to show you that you do not know the value of money. I have not been able to make you understand it when I told you that you did not."

"I'm afraid I'm doing wrong to let you go, for you are much too young to take upon yourself the responsibilities which you are shouldering with such jaunty assurance."  
 I trembled inside of me. Suppose Father would take back his check? If he did, I knew I was afraid to go out into the world with only ten dollars in my pocket.  
 So I hastened to tell him:  
 "It's just because I am young, Dad, that I can shoulder responsibility. Nothing looks so terrible to me as it does to you." I proclaimed calmly, as I thought of the possibilities of youth and what it would mean to me to realize some of them.  
 "Dad, you seem to have forgotten that many women heretofore fathers or husbands are forced to face the world without the strength or courage of youth and after all the enthusiasm has been crushed out of them I want to be able to know, from experience what I would have to do if you left me without anything I want to know this before I may come back to you if I wish."

Dad looked at me rather sorrowful.

## LITTLE JOE

IT'S A GOOD THING WOMEN AREN'T ARRESTED FOR FRAGRANCY

In his own mind, he was sure that he would soon be coming back to him with illusions lost. For a moment his face softened as he had never seen it do before and then he spoke decisively. "Remember, Julia, your father's house is always open to you—but if you return, you must have no more thoughts of independence and liberty. You must settle down to quiet and modesty until you marry and go to a home of your own."

With this he went out the door, not giving me a chance to answer him. (Copyright 1926, NEA Service, Inc.)

## LIFE'S SUNNY AFTERNOON

With her children grown up, the middle-aged woman finds time to do the things she never had time to do before—read the new books, see the new plays, enjoy her grandchildren, take an active part in church and civic affairs. Far from being pushed aside by the younger set, she finds a full, rich life of her own. That is, if her health is good.  
 Thousands of women of middle age say they owe their vigor and health to Lydia E. Pinkham's Vegetable Compound. Those who have learned through their own experience the merit of this old reliable root and herb medicine are enthusiastic in recommending it to their friends and neighbors.

# BAETZMEN DROP TWO BALLGAMES OVER WEEKEND

## Green Bay Defeats Local Club 5-1, 14-2, In Twin Bill On Bay's Ballground

Appleton Team Is Outhit in Both Contests in Disasterous Weekend

VALLEY LEAGUE STANDING	W.	L.	Pct.

Green Bay	7	4	.636
Fond du Lac	6	4	.600
Kimberly	4	5	.445
APPLETON	3	6	.333
Neshanic	1	8	.111

### SATURDAY RESULTS

GREEN BAY 5, APPLETON 1.

### SUNDAY RESULTS

GREEN BAY 14, APPLETON 2.

Fond du Lac 6, Neshanic 0.

Oshkosh 6, Kimberly 0.

THE Appleton ball club suffered a disastrous weekend at the hands of Green Bay, dropping two games to the Bayites. In the Saturday encounter the Baetzmen were turned back by a 5-1 count, while the Sunday game resulted in an overwhelming 14-2 defeat. The double defeat dropped the local squad considerably in the team standing.

Green Bay won the Sunday tilt in the first two innings by crowding one run over in the first and six in the second. Another run in the seventh and six more in the eighth added insult to injury.

Appleton opened the encounter with good intentions and Goshka doubled, Bent sacrificed him to third where he scored on Ashman's sacrifice fly. Priebe doubled but was caught at the plate on a perfect peg after Bates hit to center.

Green Bay retaliated in its half of the inning when Goshka erred, Becker going to second, and Lannoye advancing Becker to third on a sacrifice. Becker then walked home on a passed ball that struck the plate and rolled against the stand ten feet away.

The second inning honors went to Clusman. Goshka erred on Clark's grounder, Crowe gave a free pass to Kirkhoff, a sacrifice hit advanced both, and Clark scored on Loeffler's single. LaCoste followed with a hit, as did Lannoye, and Clusman lifted the ball over the tall building in left field for a home run.

Appleton got one more run in the third inning, which concluded its scoring for that game.

In Saturday's game Appleton smacked Schuetz quite frequently but his team mates never really managed to take care of the ball. Kirkhoff, the lanky center fielder, who was the star of the game, had a half dozen put outs in the middle garden, while Boehm in the left pasture made three killings. Van Wycke, Appleton right fielder, made several pretty stabs.

Kirkhoff, who got four out of four, featured the long attack. Loeffler plunked out three blows while Chief Williams continued to collect his pair.

In the first innings, Becker was safe on Schultz's error. Lannoye skied to Van Wycke and Clusman popped to Schultz. Williams singled and Clark rapped but a hit, scoring Becker. Kirkhoff doubled and two more came home. Boehm was safe on Tornow's error of his grounder and slid safely into second when Tornow muffed a throw. Loeffler banged a blow through Schultz, counting Kirkhoff. On an attempted double steal, Boehm was nipped at the plate.

Appleton broke the ice in the fifth. Schuetz killed Radtke at first. Tornow got a one baser but on Schultz double down the third base line, Boehm killed him at Clark's station. Clark made a late throw to the plate when Kraft grounded and Schuetz scored. It would have been an easy out at first. Clusman took care of Goshka's grounder.

The Bays got this run back in the sixth when they doubled the scoring for the day. Kirkhoff singled but Ashman's bullet-like peg caught him stealing second. Boehm got a one bagger and stepped on the rubber when Loeffler doubled to the Bellevue barn. Schuetz and Becker were easy victims.

## O'DONNELL AND KAHN TO MEET AT MILWAUKEE

Milwaukee Fighter to Appear in Second Half of Double Windup July 15

Milwaukee—Harry Kahn, Milwaukee's slashing lightweight, who recently started the fight world, will appear in the second half of the double windup, which Tom Andrews is featuring at his first outdoor show to be held at Athletic Park, home of the Brewers, Thursday night, July 15th. Johnny O'Donnell, the fast stepping St. Paul Irishman, who has been knocking at the championship door for the last year has been picked for Kahn's opponent.

Kahn, who fights with his right hand forwards a la Lew Tendler, was a sensation as a preliminary boy around here two years ago. He finally earned a windup but went into a slump. In the last six months however he has flashed all the speed and punch which made him such a drawing card here when he started, and he promises to keep O'Donnell going at top speed all the way to win. On paper this bout promises just as many thrills as the other half of the headline in which the great Irishman, Tommy O'Brien will meet Harry Kid Brown of Philadelphia.

O'Brien, who is now here has opened training quarters and gone to work. When here before O'Brien was a happy go lucky kid but he takes his fighting very seriously nowadays as he is anxious to win the world's lightweight title. Eight experts, who have seen him in his recent fights, state that he can "take" Mandell any time Mandell gives him the chance.

O'Brien received an offer today of \$25,000 from New York to box Ace Hudkins, the hard hitting Nebraska in New York and he will probably accept the offer for a date late in August. He has fought Hudkins three times and has whipped him every time but every battle has been such a sensation that New York wants to see the pair in action. Incidentally O'Brien has received over \$40,000 for his three bouts with the so called Nebraska wildcat.

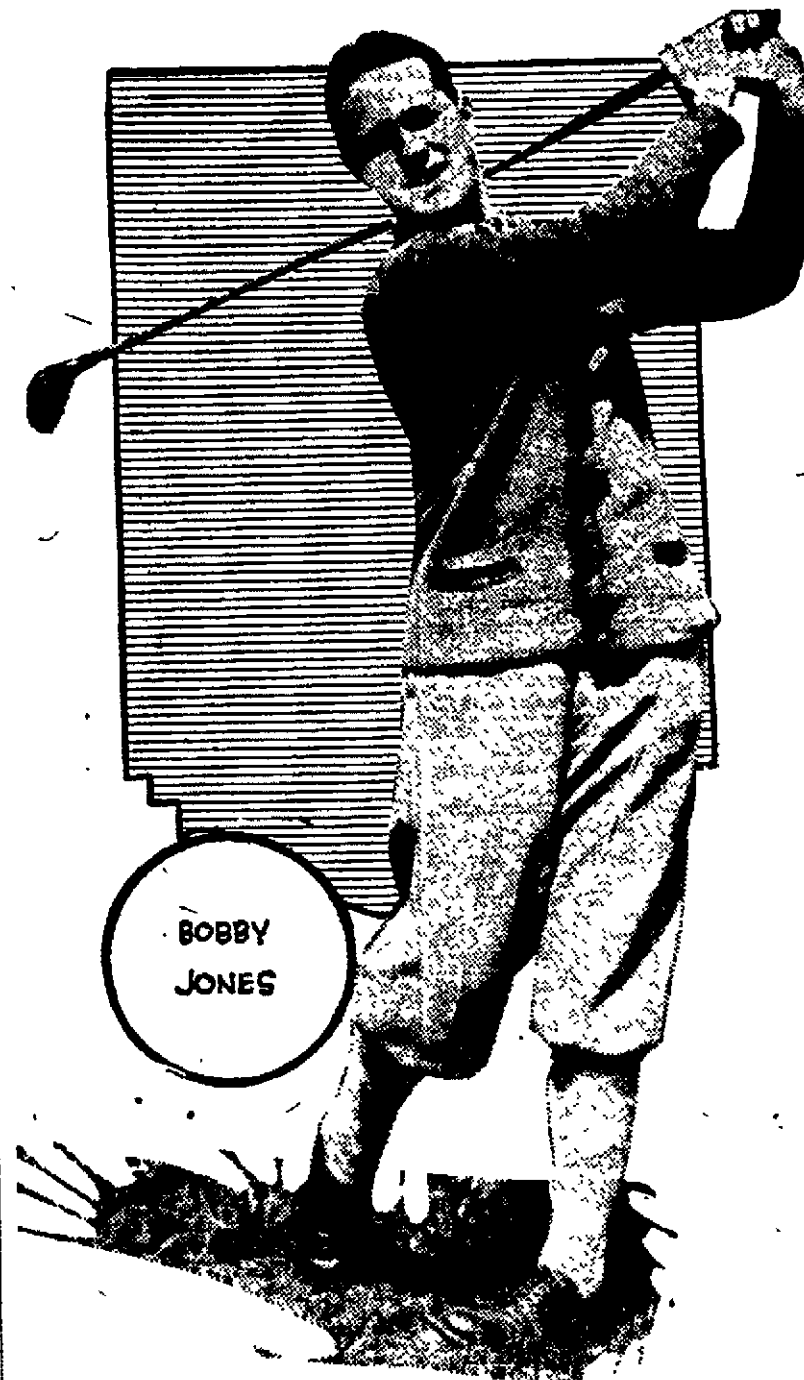

Inasmuch as the show will be held at night plans are being made to take care of a large number of out of town fans who plan to motor here for the bout. Free parking space is being provided around the ball park, and big sections of reserved seats have been put aside for state spectators. Orders for blocks of seats have already been received from Madison, Racine, Kenosha, Sheboygan and Green Bay. The prices will be \$3 to \$1 with 10,000 seats at one.

## Boston Has Edge On Macks In Deal Over Howard Ehmke

In baseball certain clubs are easy picking for star pitchers. The Philadelphia Athletics always have been soft for Howard Ehmke.

Against Connie Mack's club Ehmke has always looked like a million dollars. That is why he is now a member of the Athletics.

When the Boston club let it be known that Ehmke was on the market, Mack immediately became one of the strongest bidders. Naturally his estimate of Ehmke's ability was based on the sensational pitching he always turned in against the A's.

Mack gave three ball players for the star of the Boston staff. Manager Fohl of the Red Sox wanted Outfielder Jacobson of St. Louis, so Mack got him in return for "Bing" Miller and in addition turned over Pitchers Harriss and Helmach.

Now for a peculiar twist of fate, Mack started Ehmke against Boston in his first game as a member of the Athletics. The Red Sox knocked him out of the box.

Brian Harriss, one of the pitchers obtained from Philadelphia in exchange for Ehmke, has always been very successful against Washington. In an effort to get Harriss off on the right foot, Manager Fohl of Boston didn't start him until his club met Washington. He was held on the bench for 10 days. Harriss rewarded Fohl for his patience and wisdom by winning, 2-1.

Incidentally, Jacobson assisted Harriss in winning his first game by performing sensationally in the field. While baseball trades cannot be judged on a ball game or two, early results favor Boston as having got a decided edge in the deal.

## BREWERS GAIN TWO GAMES ON KERNELS

Milwaukee — The pennant chasing Brewers swarmed all over the Apostles like a one man top yesterday, and before 12,000 hysterical fans pulled out a pair of thrillers. Charley Robertson heaved a glittering 2 to 1 triumph in the opener and Ray Sanders cast his usual spell over the snarling Saints in grabbing the other, 3 to 2. As the Colonels lost two the Home Brewers are again on intimate terms with the top rung.

When the umpires sent them on their way the Saints looked like a debutante on her first party. When it was finally called an afternoon they looked like the rear end of a second hand car. They battled desperately all over Obee's arena but in neither game could they crash through the stout curving and spectacular fielding more than once. One time wasn't enough.

## BUTTE DES MORTS CLUB WINS FIRST MATCH, 46 TO 17

Phil Dickinson Turns in Low Score With 77; Ken Dickinson Counts 78

Golfers of the Butte des Morts Golf club set a giddy pace for representatives of the Fox River Country club of Green Bay in the initial inter-city links match of the season here Saturday, humbling the visitors by a 16-17 score. It was one of the most decisive defeats ever administered the Bay maschie artists by the local club.

Ten members of the local team counted three points over their opponents, the highest score possible. Only six of the visitors topped the Appleton golfers in scoring. Twenty-seven members of each club participated in the match.

Play was over 18 holes, and one point was awarded for the winner of each nine, and one for the player turning in the lowest total score.

Phil Dickinson of the Butte des Morts club, with a sparkling 77, shot the best score in the meet. He went out in 37 strokes and returned in 40, taking three points from his opponent, Dug Babche, who was decidedly off his game.

Ken Dickinson, state amateur champion, and W. F. Kerwin played each other to a scoreless tie, each finishing the 18 holes with 78. Kerwin won the first nine and Dickinson the last nine.

Other good scores were:  
Dr. W. E. O'Keefe, Appleton, 80;  
A. C. Witteborg, Green Bay, 81;

Heber Pelkey, Appleton, 81; Jack Stevens, Appleton, 87; Dug Babche, Green Bay, 87; Dr. H. K. Pratt, Appleton, 87; Bud Warren, Green Bay, 87; J. K. Kline, Green Bay, 88; Ralph McGowan, Appleton, 89; Ed Warren, Green Bay, 89; Dan Steinberg, Appleton, 89.

## ARE BREWS PLAYED OUT AFTER WIN STREAK

Milwaukee—It seems that the Milwaukee Brewers almost played themselves out after hanging up their sensational winning streak of 21 games a few weeks ago.

Of late the club hasn't been going so well, having dropped quite a cluster of games, though many have been by close margins. At the half-way mark the Brewers were five full tilts behind the pace-setting Louisville Colonels, a position they, themselves, held a fortnight or so ago. Winning streaks, sometimes work that way—a team runs into a bunch of reverses after a long row of successes.

## CUYLER SUFFERING FROM BATTING SLUMP

Hazen Cuyler, star Pittsburgh slugger, has been in a slump during the past three weeks and his batting average has consequently taken an emphatic tumble. From the top position he has skidded several percs. It'll take plenty of bingles for the tot to get back where he was in the middle of June.

## JONES WELCOMED BY HIS FRIENDS

Atlanta Greets Champion Golfer at Depot With City Police Band

Atlanta, Ga.—(AP)—A tired and wan golfer came home Sunday and Atlanta hailed Bobby Jones upon loyal shoulders and shouted its pride in the 24-year-old lad who overcame the premier golfers of two continents to win the British and American Open golf championships within a fortnight. Thousands of Bobby's fellow townsmen were packed under a sweltering sun on the plaza on the terminal station when the train which brought the golf monarch and his party from Columbus arrived to the accompaniment of screeching whistles, automobile sirens, bells and the roar of thousands of voices.

Clambering down the steps Bobby pushed through the throng of friends to his little car and a half old daughter Clara, whom he saw in the arms of a nurse at the edge of the crowd. The child welcomed her father with a warm embrace and a miniature Charleston.

Then the crowd claimed Bobby for its own. He was borne aloft on the shoulders of friends and carried out of the station through two lanes of infantry men of the Georgia national guard and to the tune of "Hail the conquering hero comes," played by the Atlanta police band.

## BARN DANCE

Wm. Mueller's, 1 1/4 miles Northwest of Five Corners, Fri., July 16.

Now... why hustle back to camp before dark?

NOW, for the first time, a 6 volt light attached to the timer handle of the 1926 Evinrude Sport Twin, makes night boating completely safe and comfortable. Fish as long as you like, secure in the knowledge that you can reach camp quickly and safely—when you want to.

Plug in with Evinrude battery—a brilliant light floods motor and boat. After the motor is started, disconnect the battery and the light will operate from the magneto. An extension can be used to a headlight in the front of the boat.

Listen to the smooth drone of this Champion at trolling speed—hardly a hint of the dependable power it can deliver. Then point your boat for open water and tune in on the Sport Twin's staccato beat as your boat keels through the water faster

and faster, kicking up a fan of spray in its wake. Real power there when you want it. Endurance, too. Here is a lightweight motor that brings you greater comfort and greater ease of operation, thanks to twelve major improvements. Previously unthought of, they now become yours in this latest Evinrude outboard motor.

A flip of the finger on the new single-lever-control carburetor gives just the right mixture for starting, trolling, or speeding. You have dual ignition from either the new battery or the improved magneto. Now, a standard-type lock, built right in the bracket, clamps the Sport Twin securely to your boat. The new Champion is self-steering, too—a simple clamp screw adjustment locks the motor and keeps your boat on any fixed course.

Come into our store tomorrow or the next day and let us explain all of these new features.

## HELPFUL HINTS TO GOLFING STARS

BY SPECIAL ARRANGEMENT WITH GOLFERS MAGAZINE, CHICAGO.

CECIL LEITCH—CURE FOR SOCKETING  
Looking up is often the cause of that terrible complaint called socketing. The very word is hideous, but it is nothing compared to the results of the disease. I can truthfully say that I very seldom fall a victim to this complaint, but I have socketed quite enough shots to be able to realize the agonies one can suffer when in its grip. There is no bad shot in golf which flurries a player so much as a shot off the socket and this accounts for the repetition of the mistake.

The more socketed shots I see played, the more I am convinced that the cause is to be found in the arm action.

The club is taken back in a hurried manner, and on the forward swing the player throws out her arms, with the result that the club-head is thrust too far out at the moment it meets the ball.

The player who is suffering from an attack should go to a quiet corner of the course and try the following cure:  
Put a handkerchief under the left arm-pit, take a firm stance with the weight well on the heels, keep the head still and the left arm close to the body throughout the shot. If the handkerchief remains in the position in which it was placed, it is almost impossible to socket.

## Advertisements That Speak Everybody's Language

The big magazine ad about the \$10,000 'limousine isn't talking to the same people who are interested in the ad about the correspondence course in bookkeeping.

And the housewife who reads about canned goods prob-  
ably won't understand the ad about investment securities.  
But the Post-Crescent's A-B-C Classified Ads speak ev-  
erybody's language—because everybody can find just the  
ads they want to read!

The Classifications are in "1-2-3" order. Everybody  
knows what that means. The little ads are listed in "A-B-C"  
arrangement. Everybody knows what that means. And the  
first word of every ad tells what the ad is about!  
Here's advertising service that is so simple and so help-

Mr. and Mrs. Humphrey were badly shaken up but suffered only minor cuts and bruises. The car was wrecked beyond repair.

## TUESDAY TO BE "BIG DAY" FOR CATS AND MICE

Office girls and stenographers will be "bosses" in the city hall Tuesday for all city officials, including the 12 aldermen will "back up their trousers in their old kit bags" and down them in Lake Butte des Morts where they will be the guests of Alderman Mark Catlin at his cottage in an all day stag picnic. Three municipal dignitaries will leave bright and early Tuesday morning, rain or shine, and will not come back until they have had their fill of boating, fishing, bathing, ball playing and any other entertainment which the representatives from the First ward and his "committee of the whole" have up their sleeves.

But it isn't the business of a Republican president to praise the Democrats for non-partisanship, any more than a Democratic president thought in 1918 it was his affair to criticize what he thought was obstructive tactics on the part of the Republican minority toward his foreign policies.

MEANS MUCH TO CAL  
The sum and substance is that Mr. Coolidge has gotten back to the same position in which President Roosevelt and President McKinley found themselves when by statements and public speeches they pointed out the achievements of the Republican congress and made a direct bid for their retention in power. All which is customary in politics and before next November Mr. Coolidge may go even further to try to help the Republican party retain control of both houses.

I tell depends on how the appeal is framed and the temper of the country at the moment, for it will be conceded that the atmosphere is a good deal more bi-partisan today, both inside and outside of congress, than it was in the emotional month of November 1918, even though the war was then drawing to a close.

It means a great deal to Mr. Coolidge to hold a Republican majority this autumn in the congressional election. In a sense it is to be a vote of confidence on his administration. If the Republicans were to lose both houses it might reflect unfavorably on his own political fortunes in 1928. If the Republicans were to win, it would reflect favorably on Mr. Coolidge's own chances of winning the presidential nomination two years hence improved.

# GIANTS ASSUME SERIOUS FRONT IN LEAGUE RACE

Only 4 1/2 Games Separate  
McGraw Clan from League  
Leading Reds

A race which only a few days ago appeared to be over—that in the National League—today has regained the enthusiasm manifest earlier in the season, only 4 1/2 games separating Cincinnati in first place and the Giants in sixth.

The Giants, a rejuvenated club, are responsible. Starting on a western tour well designed to provide a new league champion, they have taken four straight contests from the circuit leading Reds, and have brought them within easy reach of Pittsburgh, now in second position as well as St. Louis, Chicago and Brooklyn.

Sunday Virgil Barnes won the day for the men of McGraw. He granted only five hits, one of them a double by Curt Walker. In fact Walker made three of the Reds' total of safeties. Frank Frisch led in hits with three, while the Giants won 5 to 0 verdict.

Brooklyn, with Grimes on the mound, registered a 2 to 1 conquest over the Cubs. Sheriff Blake was hit safely only five times but the Dodger moist ball artist went him one better and allowed only four.

The Braves and Cardinals divided, the Cards winning the first 7 to 2, and the Braves second 19 to 5. That second contest was the first Braves victory over the Hornsby this season, and was derived from the hitting contest in which the hitting of the two players, Eddie and Zack, and of Burdette Brown and Mann, featured. The Braves collected 23 safeties in the contest. In the first game Grover Alexander had an easy time of it, keeping nine Boston hits well scattered.

Miller Huggins gambled with pitchers and the Athletics, idle for the day, gained half a game on the American League leaders. Emil Levison pitched an excellent game for Cleveland and won 8 to 2, the youthful Miles Thomas being eluded from the Yankee mound in the eighth. Babe Ruth gathered two and the other Yanks eight more hits off Larsen but they were unable to put them together.

The Senators, especially Stan Harris and Muddy Ruel, gave Walter Johnson considerable hitting and the veteran overcame the Browns 8 to 3. St. Louis worked a triple steal in which Manager Sisler scored.

WANTS TO FOUND GIRLS' INTERNATIONAL CAMP

Paris—(AP)—To promote world peace through an international girls camp is the idea of Mrs. E. Lowe Gordon, of New York City, who has obtained the cooperation of educators in several countries and of the French government.

Ten acres of land in the forest of Fontainebleau has been granted as a site for the camp. The plans are for a camp which will accommodate 60 girls, and to hold two sessions of a month each in August and September of each year.

One kind of seed that does not need air in order to germinate is rice.

## CHERRY CROP IS DELAYED AGAIN

Pickers' Camp Won't Be  
Opened Until Tuesday, July  
20

Because of cool weather, ripening of cherries in the Sturgeon Bay orchards has been retarded and for this reason the opening of Camp Chac, conducted by the Cherry Harvesting association, will be on Tuesday, July 20, instead of Thursday, July 15, the date announced last week. C. Wilford Cross Appleton, will have charge of the Boys camp there.

The original date set for the opening of camp was July 13, but the time was postponed for two days and now the date has been set back again. According to Mr. Cross, the cherry crop is one of the finest he has seen for many years.

More than 50 Appleton boys have signed to enter Camp Chac and they will leave by the Chicago and North-western railway for Green Bay where they will take a special train over the Green Bay and Western road to Sturgeon Bay. Several boys plan to hike to Sturgeon Bay. About 35 boys from Kaukauna will enter the camp and about 45 other Wisconsin cities are sending boys to help harvest the largest crop of cherries in years.

## FOOTBALL LEAGUE HAS 22 ELEVEN

Philadelphia, Pa.—(AP)—The National League of Professional Football clubs will start the 1926 season Sept. 19 with 22 teams, representing 21 cities, franchises having been granted three new clubs at the annual meeting of the league which closed Sunday night. Los Angeles, Brooklyn and Hartford are the newcomers.

Cleveland, Minneapolis, and New York, Conn., withdrew and Pottsville, Pa., and Racine, Wis., were reinstated. Pottsville's reinstatement coming after the payment of a \$2,500 fine for playing the eleven known as the four horsemen in Philadelphia last fall while the Philadelphia franchise holder was playing a league game.

Louisville, which has held a league franchise for several years but which for the last two years had no team in the field, will resume activities this fall.

DUTCH FARMERS PROGRESSIVE Because Holland is an agricultural nation the exceptional progress made there in agriculture since the war has attracted wide notice. The farmers buy the bulk of their materials in including seed, fertilizer and equipment, on a co-operative basis and two-thirds of their crops and dairy products are handled through co-operative agencies. Milk is sold on the percentage of butterfat it contains and this is having an effect on the productivity of the herds.

## TRACTION CO. BALLOON FOUND NEAR KAUKAUNA

Out of about 150 balloons released at the picnic of the Wisconsin Traction, Light, Heat and Power company late in June, the one reported traveling the farthest distance was returned by Mrs. John DeCoster, route 5, Kaukauna. It was released at the picnic by Melvin Trentlage, 816 W. Winnebago-st. Less than half of the balloons were returned. A heavy rain during the day of the picnic probably beat many of the balloons to earth. It is probable, however, that others traveling a greater distance than Kaukauna were not returned.

## BEGIN STEEL WORK ON RAILROAD TURNTABLE

Workmen have finished pouring concrete in the base of the new turntable being erected at the Chicago, Milwaukee and St. Paul railroad yards on S. Oneida-st and construction of the outside frame was started.

Construction of the new table was started about two weeks ago and will be finished in about three weeks, according to A. W. Liese, local agent of the company. Steel for the big table, which is to be 63 feet in diameter, has arrived and the steel crew will be in Appleton soon.

The old table in the yards will be removed as soon as the new table is completed. The reason for building the new table was that the old machine, with a diameter of 35 feet, is too small to handle the new type engines which have been placed in use by the road.

## HUGE CROWD AT INDIAN POW-WOW

Autoists Flock to Keshena  
Falls to Watch Indian Pro-  
gram

About 100 Appleton and Kaukauna people attended the Indian pow-wow at Keshena Falls Sunday afternoon and saw a 60-year-old Indian shoot the falls in a canoe made of a hollowed log with nothing but the limb of an old tree to guide him.

More than 1,000 people were crowded on the banks of the Wolf river to watch the old man perform the daring feat. The Indian games that were to be held were postponed until next Sunday on account of the initiation of one of the members of the tribe into a secret organization. This initiation took place in the woods about a half mile from Keshena Falls. The Indians had been dancing to the beat of a tom-tom and the noise of several large gourd rattlers since Friday night and the dance was to continue until Monday morning.

The ceremonies took place inside a long tent where the Indians took turns dancing and beating the tom-tom and sleeping.

ATTENTION MOOSE!  
Important meeting Tuesday  
night. Be there!

## RASEY IS SPEAKER AT ROUND-UP OF ROTARIANS

Special to Post-Crescent  
Munising, Mich.—Lee Rasey of Appleton, past district governor of Rotary clubs, was one of the principal speakers at the annual upper peninsula Rotary round-up held on Grand Island near here Saturday and Sunday.

Two former Lawrentians also were featured on the program. George Michelson for several years soloist with the Lawrence college glee club, sang several selections, and Louis Empson of Gladstone, a member of the Lawrence class of '27, played several violin numbers.

Approximately 100 Rotarians from northern Michigan clubs were in attendance.

## QUEEN WEARS PEASANT DRESS FOR ECONOMY

Bucharest—(AP)—Queen Marie of Rumania, in the interest of economy and serviceability, has adopted Rumanian peasant dress. Only at court ceremonies or elaborate state occasions does she wear European silks or satins.

Even while riding in the streets of Bucharest she may be seen any day attired in the picturesque hand-embroidered linen costume of the peasant woman, with designs worked in gold, red or blue thread, with a flowing kerchief wound around her head, a bright red-and-white, hand-knitted apron, and red leather boots.

For good dressmaking, see

"THE highest grade oil in the world"—pure Pennsylvania oil. So called because teleroughout the world it performs difficult lubrication jobs that no other oil will do so well—and in some cases, jobs which no other oil can do at all.

Pure Pennsylvania is sold under many names and many brands. But each brand sold by an Association representative, in addition to its name, carries the seal of the association. It is the seal of quality—the emblem of genuineness—the trade-mark which binds a hundred of more competitive brands into one great organization, all working for the good of the industry—and the benefit of the man who drives.

Look for this emblem. Let it be your guiding star for lubrication—guiding you away from oil worries, away from repair bills, to the nearest to perfect lubrication that Nature has ever given to man, PURE PENNSYLVANIA OIL.
